AT REST.

MRS. E. T. EDMONDS.

Citizens of Qu'Appelle were shocked to learn of the sudden death of Mrs. E. T. Edmonds, daughter of Rev. J. P. Sargent, of St. Peter's pro-cathedral, which resulted from blood-poisoning, on Sunday morning. The deceased lady had only been ill about a week when death claimed her. Her death is all the more sad owing to the absence of her husband, who is an electrical engineer on one of the Pacific steamers and who will not hear the news until he reaches Vancouver in about six weeks. The deceased lady when on a visit east a few years ago buried a little child. The sympathy of all are extended to Mr. and Mrs. Sargent and the members of the family in their sad bereavement. The funeral took place from St. Peter's on Tuesday, Revs. Brown and Dobie officiating, and the remains were followed to the grave in Qu'Appelle cemetery by a large number of sorrowing relatives and sympathizing friends.

MRS. TEITELBAUM.

It is with extreme regret that we have to record the death of Mrs. Teitelbaum, wife of the Rev. T. A. Teitelbaum, of Salcoats, and formerly of Sumner, which sad event occurred at 5 o'clock on Sunday morning, 17th inst. The deceased lady was recently confined and the child is living. She did well and Mr. Teitelbaum was able to leave home and go to Indian Head. Puerperal fever, however, set in and the best services of Drs. Mason and Patrick proved unavailing. The funeral took place on Monday. Profound sympathy is felt for the bereaved husband. — Whitewood Herald.

Chickney Chirpings.

(From our own correspondent.)

Mr. Henry Dacy, a young man of Scottish descent, who came from England about six and a half years ago, died at the residence of Mr. S. Chipperfield on the 19th inst. The cause of his death was appendicitis. He was taken ill on the 15th, and was in great pain until death relieved him of his sufferings. Dr. Elliott, of Wolseley, attended him. The deceased was twenty-three years of age, and was an intelligent and thoroughly good workman. He leaves a father, mother, five sisters and a brother to mourn his loss, all of whom are living in Great Britain.

He was interred in the cemetery of Christ church, Abernethy, last Thursday afternoon, the Rev. F. W. Johnston officiating. Two threshing machines suspended operations during the afternoon. Twelve vehicles followed the remains to its last resting place, some of which had from eight to ten persons in. The pall-bearers were Messrs. Ed. Whyte, T. E. Coulthard, F. Newsbury, A. G. Gardner and A. Turner, and were chosen by the deceased the morning before he died. The sympathy of the district is extended to the far-away parents, to whom the news of their son's death will be sudden and unexpected.

Our worthy teacher, Mr. C. Gordon Brown, attended the teachers' convention held at Qu'Appelle Station on Thursday and Friday last.

Mr. John Teece has been appointed a commissioner to take affidavits, and Mr. S. Chipperfield a fire guardian.

Mr. and Mrs. Wm. Dixon, who have been on the sick list lately, are mending slowly.

The sample of wheat threshed here is good and the yield fair.

The merry hum of the threshing machine is heard in our midst.

Mr. C. S. Dickson, one of our pioneers, was married at Fort Qu'

Appelle on the 12th inst. to Miss H. Dickinson, of Victoria, B. C. The Rev. F. W. Johnson tied the knot, after which the happy couple drove to their new home. We extend our congratulations.

Mr. H. Dixon is happy in the possession of another son.

We had a heavy snow storm about two weeks ago.

A Banker's Experience.

"I tried a bottle of Dr. Chase's Syrup of Linseed and Turpentine for a trouble-some affection of the throat," writes Manager Thomas Dewson of the Standard Bank, now of 14 Melbourne Avenue, Toronto. "It proved effective. I regard the remedy as simple, cheap and exceedingly good. It has hitherto been my habit to consult a physician in troubles of this nature. Hereafter, however, I intend to be my own family doctor."

Spencerville Splashes.

(From our own correspondent.)

On Monday evening a number of the friends of Miss E. M. Bailey gathered at her residence to spend the evening previous to her departure for Qu'Appelle to take a situation in the dry goods department of her brother's store. An exceedingly pleasant time was spent in singing, music, and with a variety of very enjoyable plays after which all partook freely of the good things characteristic to the Syndicate farm. Miss Bailey has always taken an active part in everything pertaining to the welfare of this place, and especially in temperance and Christian work, she being one of our first Sunday School teachers and last, but not least, a prominent member of the M. A. society, her cheerful disposition winning for her many friends, who wish her success and happiness in her new sphere of life.

Quite a number of our young people attended the grand church opening near Balgonie on Sunday and were much pleased with the ceremony.

A new branch of the M. A. society has just been organized here with a membership of four and with power to add to their number.

Threshing has become general here now and the enlarged granaries are still too small for the accommodation of the golden.

We sympathize with the unhappy young couple for whom the sun would not shine long enough to have their photos taken.

J. McMichael spent Saturday in Regina and reports quite an improvement in business in the capital.

The many friends of Mr. H. B. Hutton will be pleased to know that he is improving rapidly.

Mr. J. C. Starr had the misfortune to kill a fine young colt while halter-breaking him.

Mrs. Irwin, of Moose Jaw, is here on a visit to her parents, Mr. and Mrs. Hardy.

Our people spent an enjoyable time at Mr. Hardy's on Wednesday evening.

Shot His Sister.

Lethbridge, Alta., Oct. 26.—Word has just reached here from the foothills of the shooting of the three-year-old daughter of Mr. J. B. Rudd, formerly of this place. In the absence of the parents from the ranch the little boy, aged six, in some way secured a loaded gun and shot his sister's head completely off. The parents are heart-broken over the affair.

By Acclamation.

The nominations for the legislative assembly took place on Tuesday last, and resulted in the return by acclamation of Messrs. J. H. Ross, G. H. V. Bulyea, T. A. Patrick and C. A. Magrath.

Leaving the Country.

But to Evade the Police Authorities—
Warning to Farm Laborers.

Some of the farm laborers arriving here early in the fall have got themselves into trouble by selling their return tickets to parties desiring to visit friends in the east. There has been quite a business of scalping tickets and several have been confiscated at this point. A notice issued to passengers on the harvest excursions are checked by the authorities of the local offices, and when presented by others than to whom originally issued are taken up and face collected by the company. Parties buying these tickets lose the amount paid to the first holder of such tickets, and as a warning and to stop the work the C. P. R. officers are after two or three of the farm laborers who have disposed of their tickets to parties who did not know it was any harm to purchase such. One of the offenders fled across the line to Bottineau and another to St. John, in North Dakota. Detectives are now after others in the Carman and Carberry districts.—Free Press.

Hon. M. Gifford Married.

One of the most interesting figures in the Diamond Jubilee procession, says an English paper, was the Hon. Maurice Gifford, C.M.G., who led a detachment of Rhodesian Horse, his empty sleeve calling for much sympathy along the route. Mr. Gifford was married this week at St. Paul's Church, Knightsbridge, to Miss Margaret Thorold, niece of Sir John Thorold and daughter of Mrs. Thorold of Upper Seymour street. The bridegroom is a brother of Lord Gifford and nephew of Lord Fitzhardinge. He is the general manager of the Bechuanaland Exploration company, and served in Matabeleland in 1895, when he lost his arm. The bride wore white satin, and her six bridesmaids were each dressed in different colored bangaine, viz., pink, blue, eau-de-nil, mauve, yellow and white.

Mr. Gifford is well known here where he owns considerable property. His Qu'Appelle friends extend congratulations.

Teachers' Convention.

The meeting of the Central Assiniboia Teachers' association held here on Thursday and Friday last, was the best ever held in the Territories, 58 teachers being present. The following officers were elected for the ensuing year: President, Mr. A. Middleton; vice-pres., Miss B. A.; sec-treas., Mr. Fairbridge; executive committee, Miss Smith, Messrs. Hamilton, Joyce and McCannell.

Mr. W. A. McIntyre, B.A., principal of the Winnipeg Normal school, was present, and proved himself an educator of the first rank. He elucidated the teachers while he handled "Two Principles of Teaching, Illustrated," "Arithmetic," and the many practical questions from the "Question Drawer."

In the evening Mr. McIntyre delivered an address in the town hall to a crowded house on "Definite Aims in Education." To characterize this address as excellent would but inadequately express the feelings of all who had the pleasure of hearing it. Mr. McIntyre with his violin, and Mr. Barford on the piano fairly brought down the house.

Navigation is impeded by smoke and fog between Montreal and Quebec.

Many of the North American Indians were magnificent specimens of physical manhood. This was due, largely, to their active outdoor life. Nevertheless, they had the wisdom to know that an active life in the open air alone, would not keep a man healthy. They had their medicine-men, who gathered herbs from field and forest and brewed decoctions to assist the natural processes of the various vital organs.

Modern civilized men do not as a usual thing recognize the same necessity until it is too late. They ignore medicine until they are within the grasp of some serious or fatal disease. The time for a man to begin taking medicine is when he begins to feel out of sorts. If a man is thoroughly well and healthy he does not feel that way. If he does feel that way he may be pretty sure that he is half sick. When he is half sick it does not take long before he is "whole sick." Dr. Pierce's Golden Medical Discovery is the best medicine for a man when he is sick or getting sick. It puts him all right all round. It puts his stomach right to begin with, and that is the most important point. It puts his liver right, and that is the second most important point. It purifies his blood and fills it with the life-giving elements of the food he eats, and that is the third important point. It drives out all disease germs and impurities of every description. It makes the appetite keen and hearty. It is the greatest blood-maker and flesh-builder. It cures 98 per cent. of all cases of consumption, weak lungs, spitting of blood, obstinate coughs and kindred ailments. Thousands who were given up to die have testified to their recovery under this marvelous medicine. An honest dealer will not urge a substitute for the sake of a little extra profit. He gives you what you ask for.

THURSDAY, OCT. 28, 1897.

THE AXE AGAIN.

On Saturday morning last a sensation was caused when it generally became known that Mr. Gisborne, Supt. of Government Telegraphs in the Northwest, had received a letter from Ottawa informing him of his dismissal from office and giving no reason, save reduction of expenses, for such action. It is high time a halt was called in these dismissals. Such men as Mr. Gisborne, who has served the government faithfully for the last twenty-one years, should not be removed, and the government is making a grave mistake in doing so.

It is quite evident that there is a lot of dark work being done amongst the "faithful," and as sure as death the government is weakening its influence with the electorate in making such removals. No fair-minded elector will uphold them in such actions.

The plea of reducing expenses is a poor one. We have it on good authority that the new man already receives a salary of \$100 per month, Mr. Gisborne's salary was \$125, and if the incumbent takes the job at a less figure than he is already receiving, simply because he wishes a government job, he is, in printers' parlance, a "rat."

It is altogether unfair that such old and tried servants should be turned out without at least two or

three months' notice, and the Progress voices the sentiments of both parties in this section of the Dominion in saying it's a shame.

Another mean thing in connection with this dismissal is that newspapers should have been made aware of the dismissal and publish the same before Mr. Gisborne received word; but then, newspapers whose editors are members of parliament and supporters of the government learn a good deal and cannot control themselves in their delight at injuring the other fellows.

WHAT AILS YOU?

A Cold in the Head? Some Soreness? Pains Over the Eye? Disgusting Drooping in the Throat? Headache?—It May Mean That the Seals of Catarrh Have Been Sown—Don't Neglect it an Hour—Dr. Agnew's Catarrhal Powder Will Give Relief in 10 Minutes.

"I had chronic catarrh for a number of years. Water would run from my nose and eyes for days at a time. I tried many cures without any permanent relief. I was induced to try Dr. Agnew's Catarrhal Powder. It cured me and I have had no return of the malady. I find that for a cold in the head it gives almost instant relief. I would not be without it and I recommend it most heartily." C. G. Archer, Brewer, Mo.
Sold by Henderson & Parker.

THE CAMPAIGN CLOSED.

Territorial Ministers Address Their Constituents.

The last meeting of the campaign was held here on Saturday evening, Reeve Vicars occupying the chair. Premier Haultain, after explaining the constitutional change that had taken place whereby the Territories had obtained self-government instead of a one-man government, said they must not go away with the idea that this meant government as they had it in the provinces. There were two powers possessed by the provinces that the Territories did not enjoy, namely, the power to borrow money on the public credit and the power to charter railways. The Territories had not asked for these powers. The Territories were not yet ready for these powers. They were not ready for the lobbying attached to railway projects and they could not charter railways without subsidizing them, and for that reason were not prepared to deal with them. With these two exceptions, they had all the powers of the provinces, but they had not the expensive machinery of the provinces. Two resident members of the executive had proved sufficient in the past and it was all they proposed for the future. The same men with the same salaries, but under different names and with increased powers. The change, therefore, was important and was valuable.

After repeating the government's policy as regards education and public works, Mr. Haultain referred to the vacant lands that were not open either to sale or settlement and yet which escaped taxation. That was not fair or just and must be done away with. The sooner the better.

The policy of the government might be summed up in a few words: "Good, practical legislation for the everyday wants of the people, for their everyday business; that would protect their rights and would develop the resources of the Northwest Territories."

Mr. J. H. Ross followed and detailed the government's policy on public works, which he said was to construct permanent and productive works for the whole Territories, instead of mere local improvements. He also advocated the sale of school lands for present educational purposes instead of waiting to advantage posterity.

Mr. G. H. V. Bulyea followed and thanked the constituency, in anticipation, for electing him by acclamation. All the speakers spoke against the introduction of federal politics into the assembly, and Mr. Bulyea pointed out that it was on those principles he was elected. This sentiment was loudly applauded whenever reference was made thereto.

Stories of starvation at Dawson City are reiterated by some returned miners and denied by others.

The new Canadian postage stamps will be issued about Dec. 1st.

LIVES IN DANGER

The Time for Action and Great Care.

Paine's Celery Compound Should be Used This Month.

Our changeable autumn weather brings fear to the hearts of thousands of rheumatic sufferers who are unable to go to warmer climes. The present month, with its wet, cold weather and chilling north east winds will, without doubt, increase the agonies of those who are afflicted with acute, chronic, inflammatory and sciatic rheumatism. The uric acid in the system, which the kidneys have not removed, is poisoning the blood, causing stiff and swollen joints, twisted legs, arms, fingers, and contracted cords. When it reaches the heart it generally proves fatal.

Rheumatic sufferers, why remain in agony and peril? There is a sure cure and a new life for all if the proper agency is made use of. The true agency, Paine's Celery Compound, has triumphantly met hundreds of cases far more subtle and dangerous than yours; it will surely meet your troubles. It is for you to determine this day whether you shall be free from suffering and take on a new life, or remain in a condition of helplessness and torture that may drag you to the grave at any time.

Bear in mind that Paine's Celery Compound cures all forms of rheumatism, and does the work so well that the disease never returns. Mrs. J. M. Vince, of Barrie, Ont., says:

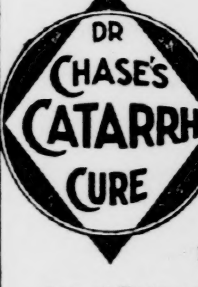

"I am happy to say that I have taken Paine's Celery Compound with great results. I had sciatica so badly that I could not turn in bed or walk without help; and for a period of three weeks was helplessly laid up and suffered pain that at times was unbearable.

"I tried many medicines but all in vain. I was afterwards recommended to try Paine's Celery Compound. I used six bottles, and am entirely cured and enjoy good health. I take great pleasure in recommending the valuable medicine that cured me."

Freight Rates.

A Prince Albert merchant recently decided to avail himself of the privilege of importing oil in tank cars. To do this to advantage it was necessary for him to build an extensive stationary tank to hold the oil in bulk. Before incurring the expense he made certain enquiries which resulted in his discovering that he would have to pay the railway company for the return of the empty tank car from Prince Albert, although such cars are returned free by the company from Winnipeg. He also found that the charge for hauling oil for 1,450 miles from Petrolia to Winnipeg was 75c per 100, and that the charge through to Prince Albert was \$1.55 or a charge of 80c for a haul of 600 miles in the Territories as against a charge of 75c for a haul of 1,450 miles outside the Territories. Who says that competition does not compete, or that the Territories do not need a new deal in railway matters?

The Ontario legislature will meet Nov. 30th. The early date is no doubt due to the contemplated action of the government on the timber question.

DR. CHASE'S CATARRH CURE

Cures Cold in the Head. Hay Fever. Bad Breath. Deafness. Loss of Taste and Smell.

"It gives me a much pleasure to testify to the excellent effects of Dr. Chase's Catarrh Cure. It has completely cured me of Catarrh in the head."

JAS. STUART, Woodville, Ont.

PROF. HEYS of the Ontario School of Chemistry and Pharmacy says: "I have made an examination of Dr. A. W. Chase's Catarrh Cure for Catarrh of any of its compounds from samples purchased in the open market and find none present."

Price 25 Cts. Complete with Blower.

At all Dealers, or J. H. Munro, Baker & Co., Toronto, Ont.

The Queen of Top Draught Heating Stoves

It will save you 25 to 50 per cent fuel. Only stove made with draft on top. Cleanest stove made. No ashes or fire can get on floor. Only stove absolutely safe. The Queen Heater is more of a heating machine than it is a stove. It can be regulated like a lamp. You can have your room any temperature you wish. Will positively keep a slow burning fire 48 hours by putting in one large stick or knot. Will heat a room 20 feet square in ten minutes in cold weather, or no sale. Absolutely air tight and the cleanest stove in the world. No opening of any kind—no ashes, dust or soot can get out. No trouble to operate. One fire lasts all winter if you will put in a stick of wood every twelve hours. Keeps fire all night—any night and every night, is a hand-ome stove the outside being Russia iron, lined with steel, and needs no blacking. The most powerful heating stove, and yet will save half the fuel of the average stove. Burns large knots, chunks, chips, cobs and trash. Never require to remove the ash—only once every one or two months. No ashes to sieve and spoil a good suit of clothes. Will take stick 24 inches long by 10 inches thick. Never wants the wood split up—you save that expense. It burns your wood in large chunks; it makes a regular heat and lasts longer. Is the greatest fire keeper in the world. Those sold already in the district have given grand satisfaction. PRICE \$12. For sale by
